Re-think Digital Operations Transformation (DOT) with IIoT2.0 Solutions

Digital Operations Transformation to Enable Net-Zero Emissions & Sustainability

Shift from **time-based** to **event-based** monitoring

Monitor everything → Monitor what matters
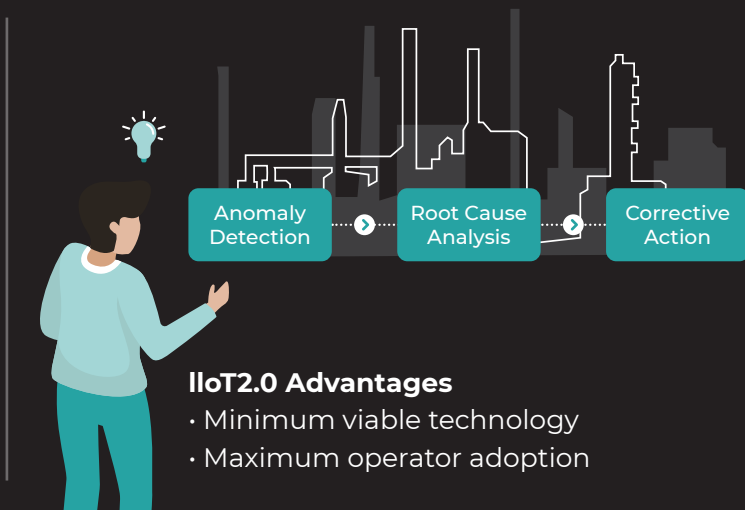

Maintain per schedule → Maintain when needed

IIoT2.0 Approach – Put Industrial back into Digital-Industrial

IIoT1.0 Limitations
- Too much technology
- Too little operator adoption

Anomaly Detection › Root Cause Analysis › Corrective Action

IIoT2.0 Advantages
- Minimum viable technology
- Maximum operator adoption

Digital Operations Transformation (DOT) Solutions

Reduce Emissions
Enhance Compliance & Safety

Avoid Over-Monitoring
Reduce Over-Maintenance

mRegz™ AirCompliance
Holistic Emissions Monitoring

mCluez™ Corrosion Monitoring
More Accuracy w/ Better Insights

mSyte™ Platform

Actionable Insights
Operator-Centric
Automated Workflows

Next-gen Sensors
System vs. Spot
Self-expressive
